**ENDURAMAXX<sup>®</sup>**  
FLUID MANAGEMENT INNOVATION

# WELCOME TO ENDURAMAXX

As a quality assured manufacturer, we have a wealth of experience in the poly product industry.

Designing and manufacturing an extensive range of quality chemical storage ranging from food and beverage production, to mission critical process chemical storage solutions.

Enduramaxx are members of 'Made in Britain', an organisation that aims to bring together the entire manufacturing solutions community in Britain. Made in Britain is a not-for-profit organisation representing a standard of quality and unity for the British manufacturing sector within the UK and around the world.

**MARKET LEADING EXPERTISE,  
INNOVATION, SERVICE AND SUPPORT  
UNDERPIN UK MANUFACTURING  
WITH NATIONAL DISTRIBUTION.  
DELIVERING OUTSTANDING QUALITY  
AND VALUE.**

## UNIQUE, ROBUST AND PROVEN PRODUCTS THAT TICK ALL THE BOXES

Single piece rotational moulding gives excellent product integrity as there are no seams to leak, split or corrode. With unique, proven moulding methods, our tanks are demonstrably tougher. Being more resistant to impacts and temperature change, suited to harsh environments and industrial process applications.

**DEMONSTRABLY TOUGHER TANKS FOR  
CHEMICAL RESISTANT INDUSTRIAL  
APPLICATIONS**

**54  
VARYING  
SOLUTIONS**

## 90,000 LITRE INTERCONNECTED TANKS

### OUR RANGE

Enduramaxx tanks can be manufactured to hold chemicals and liquids with a specific gravity of up to 2 SG.

Available in 43 sizes, ranging from 150 litres to 30,000 litres, these tanks have been engineered and constructed in one piece, with no joins or seams eliminating the requirement for centre support poles.

Our tanks are made from the highest-grade materials using the latest technologies in rotationally moulded UV stabilisation, ensuring excellent resistance.

The high specification design of every product guarantees the exact solution to any requirement.

### CHEMICAL STORAGE

We are the UK's leading manufacturer of chemical storage products and utilise the very latest rotational moulding and UV stabilisation technologies. We construct all our tanks using the very highest-grade materials ensuring exceptional quality and durability.

### WATER STORAGE

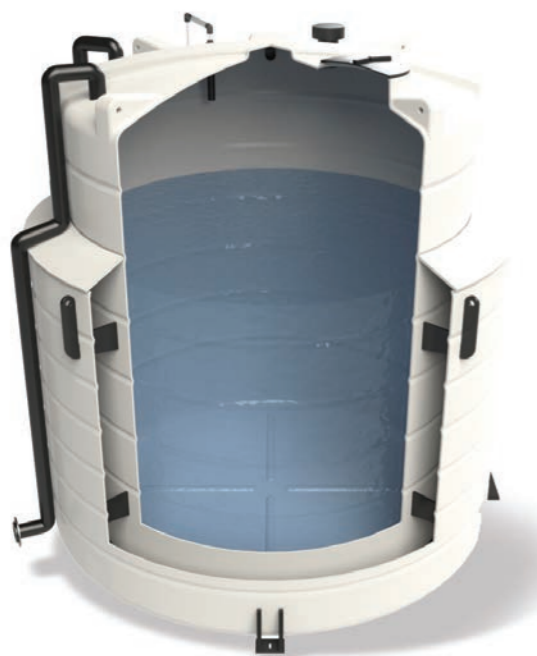

Our ISO 9001 UKAS accreditation and DWI Approvals, ensure you receive a high grade, long lasting, vigorously tested and approved product, backed up with outstanding support and service. Enduramaxx is also an approved manufacturer registered on the ECA Qualified Water Technology and Drinking Water Inspectorate Lists.

## BUNDED CHEMICAL STORAGE TANKS

Bunded tanks are designed with pollution control in mind, selected for integral protection from leakage and overfilling.

Containing a minimum 110% volume of the inner tank, these are essentially 'a tank within a tank', which helps to conform to current health and safety legislation.

We manufacture to the highest specifications from UV stabilised polymers, selected to match the

chemicals being stored. These tanks come with many benefits including easy installation on a flat concrete base, and easy re-siting as well as the use of corrosion-resistant plastic, which ensures no rusting.

Available in a range of colours, these tanks can be colour coded to enable easy recognition as to where each chemical is stored.

## MODIFICATIONS AND ACCESSORIES

With the ability to modify all our products to suit your design scope, our technical sales team can assist with the design and planning for your projects.

Fabricated with quality and longevity in mind, even our customised tanks are designed for 20 years' service life.

**BECAUSE WE DESIGN, ENGINEER AND MANUFACTURE IN THE UK, OUR PRODUCTS CAN ALSO BE CUSTOM MADE TO CLIENT SPECIFICATIONS.**

**AVAILABLE  
IN A RANGE OF  
COLOURS FOR  
EASY CONTENT  
RECOGNITION**
